Lighting Package

Colourwash uplighting using the latest LED technology to include the following features:

- No heat generation and is therefore totally safe even with small children
- Can be set to colour-change mode to slowly alter the ambience of the room throughout the course of the evening
- Stand alone units eliminate the need for a complicated lighting desk and cost of an engineer
- Low power consumption – eliminates the need for 3-phase power supply and the miles of cabling associated with conventional lighting.

Lighting package includes 20 LED units, including delivery and installation.
£400

Pinspot lighting to tables - **£15 per table** (delivery and installation is free if chosen with uplighting)

Above prices are subject to addition of vat at prevailing rate.

Except where stated all prices include delivery and installation anywhere within the M25.
